

# Think We Don't Have Homeless Families in Boulder? Think Again

## Homelessness Affects us All

*Empowered Thinking: A YWCA of Boulder County Discussion Series*

As housing gets more expensive and rental inventory shrinks, the number of homeless families and youth is increasing in Boulder. Organizations in Boulder County are working hard on approaches to solutions. The YWCA has asked Boulder County agencies focused on housing, temporary shelter, and shelter transitions to share their views and plans to alleviate the problem. Our panel will include representatives from City of Longmont Housing Authority, City of Boulder Department of Human Services, EFAA and Attention Homes Youth shelter.
